# THE 36<sup>TH</sup> VANCOUVER INTERNATIONAL WINE FESTIVAL

FEBRUARY 24 - MARCH 2, 2014

1,750+ wines \* 177 wineries \* 14 countries \* 54 events \* 8 days \* 23,000 attendees

Welcome to the 2014 Vancouver International Wine Festival, presented by The Vancouver Sun, Canada's premier wine show. This weeklong celebration of the grape has become an annual highlight for residents and tourists alike, with a full slate of wine tastings and parties, lunches, brunches and dinners, seminars, and a three-day conference for trade professionals. Whether you are a wine expert or novice, you are guaranteed to find something to please your palate or your pocketbook.

The heart of VanWineFest, however, is the International Festival Tastings, where all 177 wineries gather together in one room to showcase their wines. What sets this festival apart from other wine events

is the number of top winery personalities from around the world who travel to Vancouver to participate in the week's 54 events. You can identify these visiting vine stars (owners, winemakers, senior executives) in the Acura Tasting Room or at special events by the royal blue lanyard holding their nametag. Also look for their names in the Tasting Notes section of this program. Don't hesitate to ask them anything you want to know about their wines. The Wine World is Here to share their knowledge and the fruits of their labours with you.

This program has been designed to help you make the most of your tasting experience. To assist in putting your tasting plan together, browse the wine indices of our Theme Country, France, and global focus, Bubbly, read up on the wineries in the Tasting Notes, and then go to the Tasting Room Map on page 29 to determine your route around the room. Trade professionals take note: there is also an index of wines being poured exclusively at the afternoon Trade Tastings, an additional 167 wines to make your tasting opportunities even richer.

The Acura Tasting Room is organized alphabetically within each country of origin, from Argentina to the United States, with a special international section for Sake. The highlight of the room is sure to be the France Bon Appetit Theme Country section, where you will find all 52 of France's participating wineries organized by region, as well as special Tasting Stations showcasing wines from Alsace, Rhône and the Languedoc-Roussillon. To assist you in finding more information about a specific winery, look under the country listings on pages 17-22 and find the page number for the corresponding Tasting Notes. At the back of the book, you'll find an informative guide to France's wine regions and terroir.

All the wines being poured in the room are available for purchase or special order in the on-site BC Liquor Store – but please note, a ticket to the corresponding tasting session is required for entry. You can also order case lots of select wines right at the winery table, which will be delivered to your closest BC Liquor Store within two weeks of the close of Festival week. Just look for the specially marked tasting room wines identified with the **Shop the World** neck tag.

Enjoy your time at the festival, taste wisely, and make sure to pick up a complimentary transit ticket outside the Tasting Room to ensure a Safe Ride Home.

## *A Message from the Premier*

February 24 – March 2, 2014

As Premier of the Province of British Columbia, it is my pleasure to welcome everyone to the 36<sup>th</sup> Annual Vancouver International Wine Festival (VanWineFest). With more than 1,750 wines, from 178 wineries and 14 countries, the events planned during this week's festivities promise to be both exciting and informative. From the most experienced wine connoisseurs to novices in the practice of wine tasting, there is sure to be something for everyone.

Over VanWineFest's 36-year history, the Festival has grown into Canada's leading food and wine event and is widely regarded as North America's premier wine event. It is not only a wonderful opportunity for enthusiasts to come together and enjoy wine tasting, gourmet foods, and educational seminars, but also provides winemakers and winery representatives the opportunity to introduce their products to the public. Additionally, the Festival raises funds to support the performing arts community, with the current charitable partner being the Bard on the Beach Theatre Society.

I would like to take this opportunity to commend all those whose efforts have gone towards making this Festival possible each year – your work goes a long way in making British Columbia such a wonderful place to live and to visit.

Please accept my best wishes for an exciting and memorable Festival.

Sincerely,

A handwritten signature in blue ink that reads "Christy Clark".

## WELCOME FROM THE BOARD

On behalf of the Vancouver International Wine Festival’s Board of Directors, I am pleased to welcome you to the 36<sup>th</sup> edition of the festival. This year, we are featuring France Bon Appétit as our theme, with a global focus on Bubbly – a pairing made for elegance, sophistication and celebration.

A great many individuals and organizations contribute to the continued success of the Wine Festival and our charitable beneficiary, Bard on the Beach Shakespeare Festival, through this annual fundraising event. The Board of Directors would like to thank the participating wineries, their principals and agents; the participating country consulates; our sponsors and partner restaurants, hotels and venues; our dedicated staff and hundreds of volunteers; our key stakeholders in the community, including the BCLDB and IVSA; and you, members of the public and trade, who make the Vancouver International Wine Festival the best wine and food festival in North America.

Chair, Board of Directors

## MESSAGE FROM THE EXECUTIVE DIRECTOR

I’m pleased to welcome you to #VIWF, an annual weeklong cultural celebration of wine and food. For this 36<sup>th</sup> edition, we are showcasing 177 wineries from 14 countries, including 52 wineries from our theme country, France.

The Acura Tasting Room is the perfect opportunity to taste the world through wine. One of the best ways to tackle the room is to go to one winery from each of the nine French wine regions and each of the 13 other countries. Once you have a sense of the room and what you like, you can go back to try more wines from that region or country. Don’t just head to the busiest tables. All the wineries at VanWineFest are pouring fascinating wines, and you’ll have more time to talk with the winery representatives at the table, all of whom are winemakers, owners or senior executives, with unique insights into their product and the stories behind them. You can even get a bottle signed by them at the onsite BC Liquor Stores Festival Wine Shop, then leave it at the convenient bottle check, while you go back into the room to sample more wines. You can also take advantage of the Shop the World program, which allows you to order a case of select wines directly at the winery table.

Enjoy an engaging and safe festival. We look forward to welcoming you back next year and many more years to come.

Santé!

**Harry Hertscheg**  
Executive Director

## THANK YOU FROM BARD ON THE BEACH SHAKESPEARE FESTIVAL

We’d like to celebrate and thank the winemakers here at home and from around the world who bring us their bounty to sip and savour at this wonderful event – the Vancouver International Wine Festival. We also deeply appreciate the funds raised by the Festival; they will help us maintain the highest standards of artistic quality in the performances we present on our Vanier Park stages, and strengthen our educational programs.

So let’s taste the wines today! And join me in a toast: “To the wineries and all our partners who contribute so mightily to this great event!”

## FRANCE

This year the spotlight shines on France as the Theme Country, with 52 wineries from nine distinct wine regions participating. It is no coincidence that the world has adopted the French word *terroir* to describe the combination of natural forces that gives a vineyard and a wine its uniqueness. Indeed, the world of wine owes much to French *terroir*. French grapes, techniques and style have profoundly influenced winegrowing around the world, with New World winemakers seeking to emulate French archetypes. Yet New World ideas have also influenced France, creating a new wave of fruitier, fun-to-drink wines, especially from the South. Meanwhile, traditions live on, and wines from Bordeaux, Bourgogne, Champagne, Alsace, the Loire, and the Rhône continue to provide benchmarks for winemakers everywhere.

## ARGENTINA

Located in the Southern Cone of the American Continent, with a population of 41 million and a territory that is four times larger than France, Argentina is one of the world's greatest ecological reserves. The vast winemaking region is a strip of land located in the west of the country, at the foot of the Andes range, where the cultivated area covers more than 225,846 hectares. The altitude, the wide range of temperatures, the local know-how, the new technologies and a deeply-rooted popular wine culture lend Argentine wines unique identity and quality.

Australia has become a recognized leader in the wine world by deftly combining tradition with new ideas and technical innovation in order to produce a diversity of wine styles. While large brands continue to grab attention for their consistent quality and remarkable value, there is an increasing focus on the distinct regional excellence of Australian wines. More and more consumers are coming to realise that Oz's premium wines offer outstanding character and sense of place as well as value.

### BRITISH COLUMBIA

It's easy to find wine regions that are bigger, older, or more famous. However, it is not easy to find a region that is newer, more diverse or more exciting. The variety of soils, slope of the vineyard, weather and proximity to water (be it lakes, rivers or ocean) contributes to the unique variety of BC wines. Spectacular summers followed by warm autumn days and brisk nights allow grapes to ripen slowly, developing balanced fruit with complex, exceptional flavours.

## CHILE

Chile has long been the home of consistent quality and solid value. Wine lovers already know that Chile offers some of the world's most reliably excellent Cabernet Sauvignon, unique and superb Carmenere, while also producing outstanding examples of exceptional Syrah and Pinot Noir. Cooler coastal areas are being developed to produce clean, fresh whites of matching quality to the already renowned reds. Chile continues to produce wines of great purity, complexity and balance.

## GERMANY

Situated at the northernmost edge of the wine world, Germany is unique. In the cool weather of northern Europe, the production of fine wine requires not only quality vines and technical skill, but also imagination and a dedication to excellence. The resulting wines maintain a cult following among wine lovers, especially at VanWineFest. Riesling is the noble variety of Germany, producing some of the finest white wines in the world.

## ISRAEL

The biblical land of milk and honey lays claim to being the cradle of the world's wine industry. Israel leapt to international prominence when new, cooler vineyards were planted in the disputed territory of the Golan Heights in the early 1980s and the Upper Galilee in the 1990s. Part technology and high altitude, the Golan Heights led the country to a new dawn of quality wine, winning a host of awards at the IWSC in London and Vinexpo in Bordeaux.

## ITALY

Italy is a giant on the international wine stage. It is the largest producer and exporter in the world and has more types of vines planted than any other country, encompassing nearly every colour, flavour and style imaginable. In recent years, Italian producers have moved rapidly to the forefront of world oenology, improving techniques to create wines of undeniable class in every region. Though Italy is most noted for its noble reds, like Chianti, Barolo and Brunello, it is also a major producer of white wines, ranging in style from light and fruity to oak-aged versions of impressive substance and depth.

## JAPAN

Grapes have been grown in Japan since the 8<sup>th</sup> century. Climatic conditions do not favour winemaking (typhoons tend to make things a bit awkward), although there is a small wine industry. Sake, which is brewed from rice and is therefore technically beer, has its own rich tradition. The oldest sake brewery in Japan was established in the 12<sup>th</sup> century. Premium sake is as complex in every way as fine wine, with differences between sakes as significant as the differences between Corton Charlemagne and Puligny-Montrachet or Pauillac and Pomerol. High-quality sake is always consumed cool.

## NEW ZEALAND

An isolated South Pacific island nation with a temperate climate, New Zealand enjoys undeniable advantages when it comes to producing distinctive, ultra-premium wines. No place is more than 130 km inland and the proximity of New Zealand's vineyards to the ocean have a pronounced effect on the character of its wines. Mild, sunny summers and marked differences between day and night-time temperatures in many regions slow the ripening of the grapes and allow them to develop pure, intense varietal flavours. This is the foundation of New Zealand wines' elegance and power, and helps explain their famed balance, structure and food friendliness. Regional diversity is dramatic, enabling a striking array of wine varieties and styles to flourish.

## PORTUGAL

The image of Portuguese wine is dominated by Port and Madeira, and it should be: Port and Madeira are great wines, part of a centuries-old tradition. In wine, tradition is good. What makes Portugal exciting today is that the country is full of dynamic young winemakers who are using new technology to enhance and amplify tradition. The

# TASTE THE FIRST

It's hard to separate New Zealand and Sauvignon Blanc these days, but we were the first to put them together, over 40 years ago. You could say we've changed the way the world drinks wine.

Has it gone to our heads?

Hardly. But it has fired us up to do more.

## SOUTH AFRICA

The vineyards of the Western Cape are situated at the southernmost tip of Africa, enjoying a Mediterranean climate with cool, wet winters and warm, dry summers. The Indian and Atlantic oceans help to create a variety of microclimates extending from the cool coastal areas to warmer spots inland. As South African winemakers embrace the diversity of soils and climate, the result is reflected in distinctive, elegant and complex wines. Syrah has quickly blossomed as the top red varietal, and Cabernet Sauvignon continues to produce top wines. For whites, Chardonnay and Sauvignon Blanc are plentiful, but the under-rated Chenin Blanc is helping to give South Africa a unique varietal expression.

## SPAIN

Spain cultivates more acres of vineyards than any other country in Europe, and its wine regions encompass a wide range of climates and soil types. Its bodegas make bold, cellar-worthy reds, fresh and fruity whites, distinct sparkling wines and, of course, a wide range of styles and flavours of Sherry. It is further testament to Spain's diversity and vinous riches that while it produces some of the most sought-after cult wines on the planet, it also continues to offer some of the world's best wine values.

## UNITED STATES CALIFORNIA

California is established as one of the great

wine regions of the world, due in part to vintners full of energy, passion and vision. Their profound dedication to crafting the best possible wines has allowed California to remain a top competitor in the New World wine category. In an increasingly competitive global marketplace, with growing consumer environmental awareness, California vintners are committed to farming responsibly and utilizing the best science available. This commitment to sustainable agriculture demonstrates that steps are being taken to ensure that Golden State winegrowers will have viable and outstanding land for growing wine grapes and producing world-class wines long into the future.

## OREGON

Oregon may have the most challenging ripening conditions in all of the United States. Far from being a disadvantage, Oregon has benefited from its geography and climate by emphasizing quality over quantity and focusing on wines of great complexity. Oregon Pinot Noir has found considerable success around the world while winemakers are also getting great results with Pinot Gris, Chardonnay and Gamay Noir.

## WASHINGTON

Washington State has a recognized reputation for consistency, quality and value. The growing conditions are superb: aridity, well-drained soils, and long hours of sunlight. Cabernet Sauvignon and Merlot are often spectacular, while Syrah can be rich, complex and world class. Washington Chardonnay, Sauvignon Blanc, Riesling, Chenin Blanc, and Gewürztraminer invariably present textbook varietal character, and all are consistently great value for money.

Every sip is a celebration! One of the great misconceptions about sparkling wine is that it is only appropriate as an aperitif or to mark a special occasion. But the versatility of this refreshing wine means that you can find fizz to suit any situation. Adding bubbly makes even the simplest event extraordinary.

While Champagne might be the most famous sparkling wine, it in fact accounts for only eight percent of the world's production. Only wine produced exclusively in the Champagne region of France by the *méthode champenoise* can claim the name, but there are spectacular sparkling wines found throughout the world under other regional handles – Cava in Spain, Sekt in Germany, Prosecco in Italy – and many different styles, from bone-dry bruts to sweet secs. Bubbles come in white, pink and red as well, with popular Rosé fizz and Aussie sparkling Shiraz.

Sparkling wine is defined by the measurement of pressure inside a stoppered bottle. True sparkling wine must contain more than three atmospheres of carbon dioxide, which when released provide the trademark bubbles. There are three main processes of putting the bubbles in bubbly: traditional, transfer, and charmat, all of which involve initiating a second fermentation – either in the bottle or in a tank – in order to produce carbon dioxide.

While not an obvious pairing wine, per se, sparkling wine is nonetheless the perfect palate cleanser, making it an ideal accompaniment for any meal. This also makes sparkling wine your best friend in the Acura Tasting Room. Switching from a full-bodied red to a light white? Refresh your taste buds first with a sip of sparkling. With more than 110 different expressions of sparkling wine in the room, and a Bubbly Tasting Station, you'll never be far from a spectacular bubbly.

## SOPHISTICATED FLAVOR, SENSIBLE VALUE

BEST VALUED WINE ON THE MARKET  
Cabernet Sauvignon and Merlot blend

"The nose is layered with ripe strawberries, wet stone, and pipe tobacco. Raspberry and strawberry nuances lead into a touch of spice on the palate. These flavors continue through the surprisingly long finish. This is a wonderfully approachable wine that will improve in the bottle for another six years."

Haywire wines are made at Okanagan Crush Pad winery in Summerland, BC, where owners Christine Coletta and Steve Lornie established Switchback Vineyard in 2007. The wines are made by Michael Bartier and Matt Dumayne with guidance from Italian consulting winemaker Alberto Antonini. The name Haywire is an apt description for the owners' transition from the city to farming and running a winery. **Alison Scholefield**, Brand Ambassador, joins us at the festival. ## ABOUT VANWINEFEST

The Vancouver International Wine Festival, Canada's premier food & wine event, has three mandates: to provide an informative, educational and entertaining wine experience for public and trade; to be a premier marketing opportunity for the wine industry and festival partners; and to raise funds for the Bard on the Beach Theatre Society.

VanWineFest grew from humble roots as a fundraising initiative for the former Vancouver Playhouse Theatre Company, dreamed up by the late **John E. Levine**. The inaugural festival in 1979 featured one vintner – Robert Mondavi – and saw approximately 1,000 people attend the two-day event at Hycroft, the Shaughnessy mansion owned by Vancouver's University Women's Club.

By its fourth year, the festival had grown to attract 45 California wineries, becoming known as the California Wine Festival. The ninth festival in 1987 was the first multi-national event, with wineries from seven countries showcasing their wines. In 1988, VanWineFest moved to the Vancouver Convention Centre, where the main International Festival Tastings have been held ever since. The festival is now annually scheduled for the last week of February.

In 1996, VanWineFest began shining the spotlight on specific wine regions or countries by featuring a new area each year, with the French wine region Bordeaux as the inaugural theme. This year, the theme country is **France**, with nine different French wine regions featured (including Bordeaux). Since 2004, VanWineFest has highlighted an annual global focus, with **Bubbly!** under the spotlight this year.

Today VanWineFest attracts some of the biggest industry names from around the world and is firmly established as the continent's premier wine event and among the biggest, best and oldest wine events in the world. It features wine tastings and pairings, gourmet dinners and luncheons, educational seminars and culinary competitions.

This is a rare opportunity to meet owners, winemakers and senior representatives from wineries around the globe. For either the experienced wine lover or the novice, the festival has something to please every palate and pocketbook.

Bard on the Beach is the proud beneficiary of the

A *Nutshell* talks to provide insight into the plays, concessions and bar services and a boutique.

Through its constantly expanding community outreach, Bard hosts the immensely popular Young Shakespeareans Workshops for youth and teens at the site during the summer and Bard in the Classroom workshops for students and teachers during the school term.

Bard on the Beach is extremely proud to have been chosen by the Vancouver International Wine Festival as its charitable recipient. This partnership will be invaluable to the Festival, helping it to maintain its high level of artistic standards while keeping it an affordable entertainment option for theatre-goers locally, across the country and around the world.

### Mission:

To perform, explore and celebrate the genius of William Shakespeare.

### Vision:

To create an enduring contribution to the cultural fabric of the community as an inspiring centre of Shakespeare performance, education and understanding.

Celebrating its 25th Season in 2014, Bard on the Beach Shakespeare Festival is one of Canada's largest not-for-profit, professional Shakespeare festivals. Presented in a magnificent setting on the waterfront in Vancouver's Vanier Park, the Festival offers Shakespeare plays, related dramas, and several special events in two performance tents.

**Bard on the Beach's 2014 season will** run June 11-September 20. This year sees the return of two audience favourites: *A Midsummer Night's Dream*, directed by Dean Paul Gibson and *The Tempest*, staged by Meg Roe. Presented on the BMO Mainstage, they will be re-imaginings of Gibson and Roe's hugely successful 2006 and 2008 productions. On the Douglas Campbell Studio Stage, Bard presents a bold adaptation of Shakespeare's *Cymbeline*, directed by Anita Rochon and *Equivocation*, a story set in Shakespeare's era, written by contemporary playwright Bill Cain and directed by Michael Shamata.

Bard on the Beach was established in 1990 with a mandate to provide both Vancouver residents and tourists with affordable, accessible Shakespearean productions of the finest quality. The Festival began as an Equity Co-op, funded primarily by a Canada Council Explorations grant awarded to Artistic Director and Founder Christopher Gaze. A fully professional, not-for-profit theatre company, Bard on the Beach now engages thirty actors in two companies to perform four plays each season, as well as a team of exceptional directors, designers, and technicians; it is also supported by more than 200 volunteers. The productions consistently receive both critical and audience acclaim and play to sold out houses. Over 1.2 million patrons have enjoyed Bard performances over its 24-year history.

In addition to its Shakespeare productions, Bard offers many ancillary activities including opera concerts, specialty workshops, lectures and forums. The tented Bard Village provides patrons with a range of activities and services including informal *In*

FEBRUARY 2014

# Bienvenue!

Welcome to the 2014 *Vancouver International Wine Festival* on behalf of *France Bon Appétit*, the *French Ministry of Agriculture, Agrifood and Forestry (MAAF)* and all its wine councils. We are honoured that France has been chosen as the theme country for this 36th annual festival, and doubly delighted to be in the spotlight during the second year with *Bard on the Beach* as the charity benefactor.

We are pleased to be working with some of Canada's most dynamic speakers on the various French seminars and collaborating with incredible chefs, sommeliers and entertainment locally, as we work to bring to Vancouver a little taste of the 'Joie de Vivre' that is French wine.

An action-packed itinerary of French wine has been put together for your enjoyment this week, featuring winery dinners at some of the city's top restaurants, delectable grazing lunches and tutored tastings of some of France's most treasured wines.

The International Festival Tasting sessions are always highlights of the vinicultural experience, for both trade and the general public alike, where this year we are proud to present more than 60 wineries from all over the country. France has spent thousands of years building its reputation as a quality wine producing country. It offers so many distinct regions and diverse varieties that it can be hard to narrow your favourites down to just one style, so we have devised a system that should help:

- 1 Visit our French wine ambassadors in the France section of the tasting room to find your style.
- 2 Look around the tasting room at the French winery signs for quick access to your favourite wines!
- 3 Embark on a guided tasting experience à-la-Française...

'Bubbles' are the global focus of this year's festival, and sparkling wine is synonymous with celebrations, so what better place to look than the various regions of France to discover Crémants and Champagne to sparkle in your glass?

French wines belong in the lifestyles of British Columbians, and France is working closely with BC Liquor Stores to bring a wide array of these wines for us all to enjoy well beyond the Festival Week. Beginning March 1st, French wines will be prominently featured throughout the province in many BC Liquor Stores.

We feel confident that you will all have an action-packed festival and we hope that you will enjoy it with a French flair: holding joy in your heart and wine in your glass.

**A votre santé!**

Guillaume Garot  
Deputy Minister of Food, Ministry of Agriculture, Agrifood and Forest (MAAF)
